Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the Office agrees that the apparatus and method including either two full or a plurality of full symbols on each of said reels are simultaneously displayed appears allowable over Nolte since Nolte does not permit two full symbols. It is noted that the manner of play with regards to claimed apparatus and method of using a stop device to stop symbol displayed in display does not patentably distinguish over Nolte at least since Applicants disclosure permits use of stop device when desired symbol is outside display window as per instant specification page 28, lines 13-20 which thus functionally operates in same manner as Nolte of pressing stop device when symbol is outside display window and thus only the two full or a plurality of full symbols that patentably distinguishes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
